The Friends of The North Brookfield Town House and Preserve a Masterpiece

http://northbrookfield.net/the-friends-of-the-town-house/

The North Brookfield Town House is one of the most historically significant buildings in our town, as well as in the region.

The Friends of The North Brookfield Town House was organized to ensure that this rare jewel of a building is restored and that the Great Hall and the George M. Cohan Stage will once again become a place where social events can take place. The Friends seek to accomplish this through public education, fund raising, acquisition of grants, and marketing the use of the Great Hall for public and private events.

Designed by Elbridge Boyden, one of the era's premier architects, and built during the Civil War, this landmark building became the center of social and economic life in North Brookfield.

The Great Hall within the Town House nears acoustic perfection. It is the ideal venue for plays, musical events, meetings, and receptions, as well as other uses that will bring social and economic activity to the downtown, thus fulfilling its original purpose.

We now have the opportunity to return this magnificent building to its original splendor. Join your friends and neighbors in this most worthwhile of endeavors.
